The Number One Best-Selling Sports Paper

Saturday 10th February

South Korea's Sensational Opening Ceremony

Millions of viewers tune in to watch the greatest show on the planet.

Last night, the 2018 Winter Olympics kicked off in style with a two-hour long opening ceremony held at the Olympic stadium in Pyeongchang. Hundreds of performers honoured South Korean culture and history, followed by a parade of athletes from over 90 nations who will compete in various winter sports over the next few weeks. This major sporting event, which takes place every four years, is an international tradition that first began in 1924.

The 2018 Winter Olympic torch relay began in Greece back in October 2017. It then covered 2,000km of South Korea before reaching Pyeongchang for the opening ceremony.

Eve Muirhead. Short track speed skater Elise Christie was also present after her disappointing disqualification in 2014, having been believed to have caused a crash. When interviewed, she defended her actions by stating, "You are going at 35 mph and you've got to make a decision in less than a second. My sport is unpredictable and that's why I love it."

Following the event, one of the 35,000 spectators said, "Absolutely unforgettable! The atmosphere was electric!" When asked about the cold weather, one British spectator commented, "It was a very cold night, but the ceremony warmed my heart." Team USA combatted the freezing temperatures by wearing heated parkas during their parade into the stadium.

Winter Olympian, Lizzy Yarnold, competing in the skeleton event.

Hopes are high that this will be Team GB's most successful Winter Olympics yet, enabling them to break their four-medal record. With British athletes also competing in bobsleigh, luge, biathlon, alpine skiing, cross country skiing, freestyle skiing and snowboarding, can they do it? Watch this space.

by Dave Perry

The 59-strong Team GB arrived in South Korea some time ago. In a recent interview, Lizzy Yarnold, who won skeleton gold in 2014, said that she was on great form and ready to defend her title. She was joined in the Team GB parade by figure skaters Penny Coomes and Nick Buckland and sibling curlers Glen, Thomas and

LUCKY LOTTERY WINNERS... WIN AGAIN!

Reported by Susan Sharp, Media Correspondent, Ports Bay

Mr and Mrs Mills of Smith Lane, Ports Bay, could quite possibly be the luckiest couple in the country. William and Betty, who buy a lottery ticket once every month, have been celebrating for the second time in four years.

The fortunate couple first scooped a huge £275,000 back in February 2012, having bought their ticket at the last minute. 'We almost forgot to buy our ticket,' Mr Mills explained. 'We remembered just before our local supermarket closed and rushed down to get it.' Once they'd recovered from the initial shock, they donated a large amount of their winnings to several different charities, as well as making improvements to their home and treating their family and friends to special holidays. The lucky pair never thought that they'd win again but continued to take part in the lottery because the money goes to charity.

However, Mr and Mrs Mills were in for a shock as their lottery numbers were chosen again! On the night of this most recent win, Mr and Mrs Mills had their granddaughter staying with them.

Betty informed us how it happened. 'The lottery draw was on television and Alisha happened to be watching it. My husband and I were busy doing the dishes in the kitchen so she asked if she could check the numbers for us. In the next moment, she's screaming and shouting the house down! I thought she was joking.'

The couple had five matching numbers, winning them an even larger, life-changing amount of £800,000. Mr Mills added, 'We were all jumping around and dancing in the living room. We never believed it could happen again.' Alisha commented on the experience, 'I never knew my grandad could move like that!'

William and Betty Mills - are they the luckiest couple in the country?

When asked about their secret and top tips for choosing winning numbers, Mr Mills explained. 'We've always chosen numbers which mean something to us, like family birthdays or house numbers. My lucky number is 13. But really, we have just been hugely lucky. There's no secret method I'm afraid.'

The two winners have revealed that they'll be donating £600,000 of their win to local, national and international charities. 'They need the money more than we do,' stated Mrs Mills. 'We'll treat ourselves to a fancy meal out somewhere and give the rest to the family. We have our health and happiness so what more could we ask for?'

When asked if they would continue to play the lottery, Mrs Mills replied, 'I suppose we don't really need to but it's become a bit of a habit now. We go down to our local supermarket, choose our numbers and have a cup of tea at the coffee shop around the corner. So, I suppose, yes, we will continue to play. Surely we couldn't win again?'

Money raised by the lottery is used to fund and support good causes. For every ticket sold, a large portion of the money goes to a huge variety of projects, both big and small - from repairing park play equipment to funding future Olympians and Paralympians.

I can investigate the features of a newspaper.

Task: Lucky Lottery Winners...Win Again!

Using the checklist on the next slide, can you find evidence of each of the key features?

In your book, write the feature and then list the supporting evidence underneath.

Features	✓ / X
The name of the newspaper	
A headline that uses a pun, rhyme or alliteration	
A subtitle which gives a bit more information about what the report is about	
The reporter's name	
An introductory paragraph containing the 5 Ws (what, where, when, who, why)	
Information about the main events presented in chronological order	
Pictures with captions	
Written in the third person and in the past tense	
Direct and reported speech	
Formal language	
Rhetorical Questions	
A conclusion paragraph to explain what might happen next

Plenary:

What is the purpose of a news report?

Who would be the audience of a news report?

**Can you recall some of the key features of a
news report?**

I can use Microsoft Word to create an information document.

<https://www.kids-world-travel-guide.com/mexico-facts.html>

Activity: Research on what Mexico is like now and gather information and pictures to show this.

Skills you will learn,

- Copy and paste
- Find reliable information
- Change font and size
- Taking notes from online sources

Challenge: Change the font and colour.
Can you include a table?

10.01.22

I can multiply up to 4-digit by 1 digit.

Flashback 4

Year 5 | Week 1 | Day 1

- 1) What is the area of a square with a side length of 6 cm?

- 2) What is 24×3 ?

- 3) Find the sum of £1,250 and £3,940

- 4) Write down a 4-digit number with 3 in the hundreds column.

10.01.22

I can multiply up to 4-digit by 1 digit.

<https://vimeo.com/48677551>

Watch the lesson above and complete the work on
the next slide

Reasoning:

Is the following
statement true or
false?

Can you use
reasoning to explain
your thinking

When using column multiplication, always start
with the most significant digit.

1	2	3	4
\times	5		

Multiply 4-digits by 1-digit

- 1** Complete the sentences to describe the multiplication.

Th	H	T	O
1,000 1,000	100 100	10	1 1 1
1,000 1,000	100 100	10	1 1 1
1,000 1,000	100 100	10	1 1 1

There are ones altogether.

There are tens altogether.

There are hundreds altogether.

There are thousands altogether.

$$2,213 \times 3 = \boxed{}$$

- 2** Complete the multiplication.

Use the place value chart to help you.

Th	H	T	O

2	1	0	2
x			4

- 3** A football stadium holds 2,214 people.

The stadium is full for 4 matches in a row.

What was the attendance for all 4 matches?

Th	H	T	O
1,000 1,000	100 100	10	1 1
1,000 1,000	100 100	10	1 1
1,000 1,000	100 100	10	1 1
1,000 1,000	100 100	10	1 1

2	2	1	4
x			4

The attendance for all 4 matches was

- 4** Nijah is calculating $2,430 \times 3$

She makes this place value chart to help her.

Th	H	T	O
	100 100	10 10	1 1
	100 100	10 10	1 1
	100 100	10 10	1 1

She gets the answer 729

What mistake has Nijah made?

What is the correct answer?

- ## 5 Complete the multiplications.

a) $3,126 \times 3 =$

b) $4,812 \times 2 =$

- 6** Ron is working out $7,423 \times 0$

$$\begin{array}{r}
 7423 \\
 \times \quad \quad \quad 0 \\
 \hline
 7423
 \end{array}$$

The answer
is 7,423

Do you agree with Ron? _____

Did Ron have to use a column method? Is there a quicker way?

- ## 7 Work out these multiplications.

$2,846 \times 2 =$

$2,846 \times 4 =$

$2,846 \times 8 =$

What do you notice about the answers?

- 8

$$248 \times 10 = 2,480$$

Without using the formal method, how could you use this fact to calculate 248×99 ?

Check your answer using the formal method.

Which method was easier?

- 9** Use each digit card once to write a multiplication.

- [1](#)
- [2](#)
- [3](#)
- [4](#)
- [5](#)

A 5x5 grid of light blue lines on a white background. A red 'X' is drawn across the second column from top to bottom.

How many different products can you find?

What is the closest product to 8,000?

1
