The second time that you copy, try to use today's **Word of the Day** in your own sentence instead of the sentence below.

Shuffling into the history lesson,

Tulian noticed the height of his

new teacher.

Do you know what this word means? Would you be able to explain its meaning to someone and give an example of its use?

I'll show me my map if ye'll take me there —
There'll be treasure enough for us to **SHARE!**

There are rubies and diamonds
The **SIZE** of balloons —
Silver and guineas
And golden doubloons.
But grab it all **QUICK**
or he'll have your entrails!
Now fiddle-de-dee,
Let's spread those sails.

There is one small thing I forgot yesterday —
There's also a **MONSTER**, or so they say.
He likes to **EAT** pirates who come for his treasure,
And he chews up their ships,
Just for good measure.

To find this island,
You'll have to be **QUICK** —
For they say it performs
A vanishing **TRICK!**
And none who've tried
To set foot on its sands,
have **EVER** returned
To pirate lands.

I was swimming one day and what did I see?
I **PIRATE** packed boat in that scurvy sea!
With a fiddle-de-dee,
There'll be **DINNER** for me.
Fiddle-de-dee, across the...

Oh yes, I agree,
He doesn't **SCARE** me!
Though, no bones about it,
He's a **BIG** old beast,
Who likes nothing more
Than a pirate **FEAST!**

Off you go boys, but I think I'll **STAY** here,
I doubt what you'll find will bring you good cheer.
For a pile of old metal you don't really need
Has brought on a dangerous case of **GREED!**

I was sailing one day and what did I see?
An island of gold in the scurvy sea!
With a fiddle-de-dee,
There'll be treasure for me.
Fiddle-de-dee, across the sea

As I sailed the seas, I scribbled a map
So when I got home I could find my way back.
Ye cannot imagine the booty that's there —
A **HUGE** haul of treasure,
Beyond compare!

What's the theme of the poem?

How would you describe the style of the poem?

Monday 10th January 2022

I can order the verses of a poem.

What do you notice happens during
the fiddler's poem?

*When I was one, I sucked my thumb, the day I went to sea
I climbed aboard a pirate ship and the captain said to me
I'm going this way that way, forwards and backwards, over the Irish Sea
A bottle of rum to fill my tum, now that's the life for me.*

*When I was two I buckled my shoe and then I went to sea
I climbed aboard a pirate ship and the captain said to me
I'm going this way, that way, forwards and backwards, over the Irish Sea
A bottle of rum to fill my tum, now that's the life for me.*

v3: When I was three I bashed my knee

v4: When I was four I scrubbed the floor

v5: When I was five I went for a drive

Well a hundred years on the eastern shore
Oh, a hundred years on the eastern shore
A hundred years ago, it was so very long ago!

Well its Bully John from Baltimore
Well I knew him well on the eastern shore
A hundred years ago, it was so very long ago!

Well it's Bully John's the boy for me
He's a buckle on land and a bully at sea
A hundred years ago, it was so very long ago!

Well its been a long time and a very long time
Well its been a long time since I made this rhyme
A hundred years ago, it was so very long ago!

What is the refrain?

How do we know?

Well my old mother she wrote to me
Me darling son come home from sea
A hundred years ago, it was so very long ago!

Well I thought I heard the first mate cry
That bleeding top main sheave is dry
A hundred years ago, it was so very long ago!

Well I thought I heard the old man say
Well it's one more pull and then belay
A hundred years ago, it was so very long ago!

What might a pirates life be like?

Monday 10th January 2022

I can order the verses of a poem.

Here's an example to look at together ...

Repeated refrain:

Oh, it's the pirate life for me!

Stanza 1:

All across the stormy seas,
Our clothes were full of hungry fleas
Oh, it's the pirate life for me!

Stanza 2:

We were always looking for buried treasure
And gems and diamonds for good measure
Oh, it's the pirate life for me!

I can explore scientific properties.

We are going to create an ooze like goo.

Follow the instructions: youtu.be/Oo6xMSaPVoU

Is it a solid or a liquid?

How do we know?

What are the properties of each?

Monday 10th January 2022

I can explore scientific properties.

Can you explain what is happening?

Why is it easier to move through
the liquid slowly?

Monday 10th January 2022

I can identify a solid, liquid and gas.

What is a solid, liquid or gas?

Can you give any examples for each?

Monday 10th January 2022

I can identify a solid, liquid and gas.

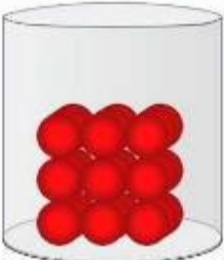

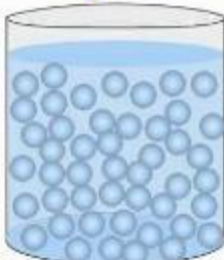

Let's learn:
