I know about the great fire of London

<https://www.bbc.co.uk/teach/class-clips-video/history-ks1-why-did-the-great-fire-of-london-happen/znp9r2p>

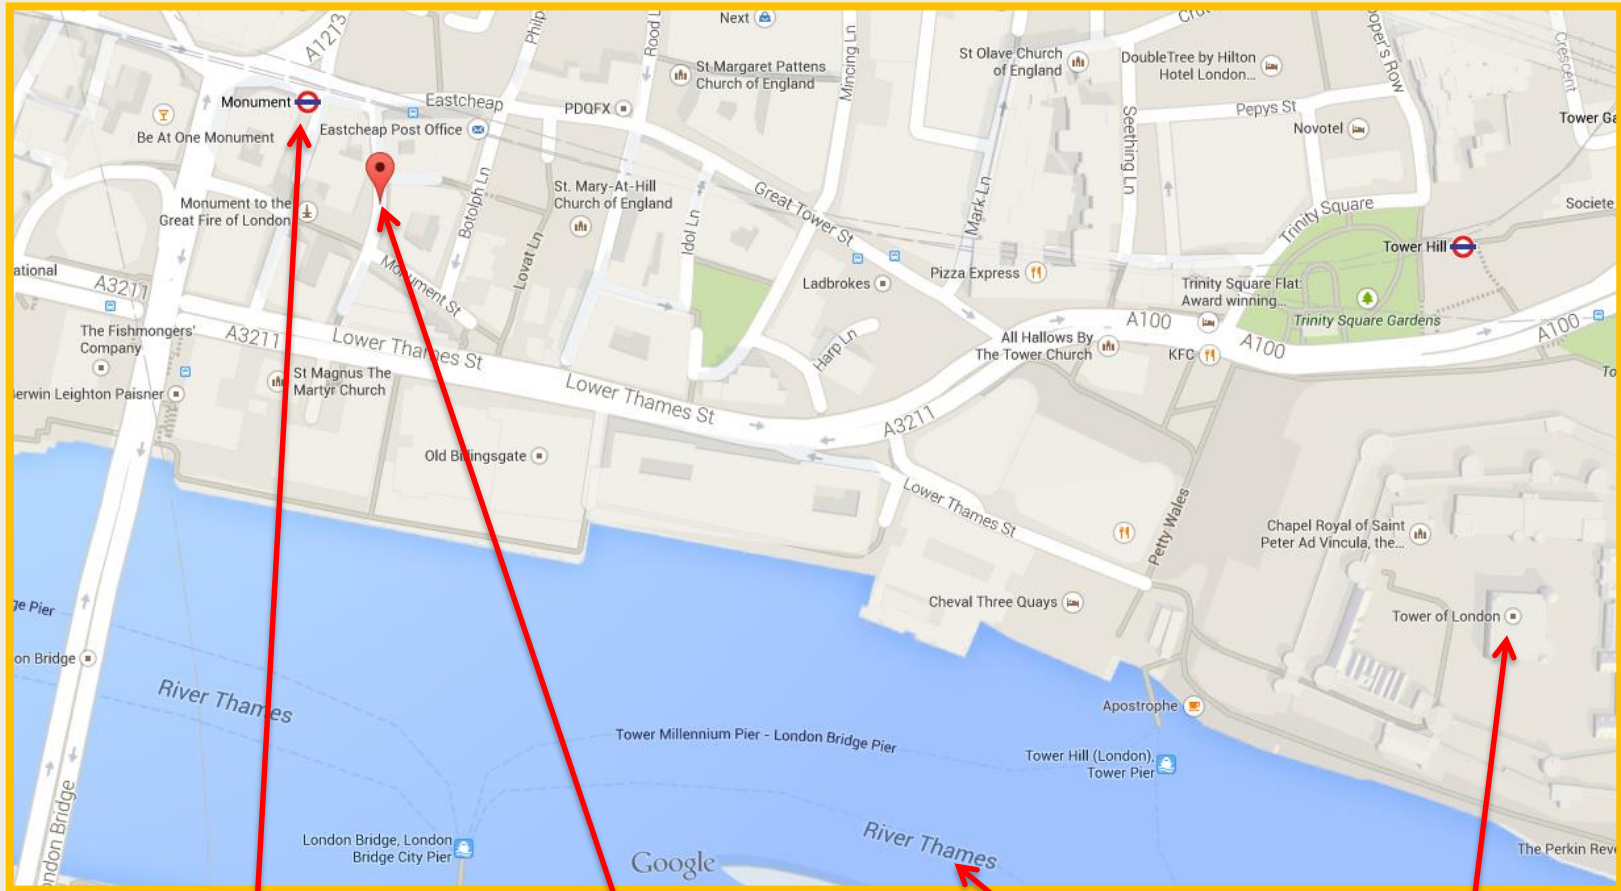

How did the  
Great Fire of London start?  
The Great Fire of London began in the early  
hours of Sunday 2<sup>nd</sup> September, 1666. It  
began on Pudding Lane, at a baker's shop  
belonging to a baker called Thomas Farriner.

This is Pudding Lane

This is the River Thames

The Tower of London is not far away!

# Early Sunday Morning

The famous 'Great Fire of London' started on Sunday the 2nd September 1666 in a baker's shop on Pudding Lane. The baker was called Thomas Farriner.

Thomas had forgotton to put out a fire he made to bake some bread. The fire soon began to spread throughout London. The Great Fire had begun!

# Sunday Morning

Samuel Pepys started to record the unfolding events in his diary.

# Sunday Evening

Fire services never used to exist so everyone had to use buckets of water to try and put the fire out! It destroyed many buildings, which were later rebuilt from brick instead of wood.

# Early Monday Morning

Buildings were very close together so the fire spread very quickly, especially with the added help of the wind! People had to carry their belongings to safety using boats on the River Thames.

# Late Monday Morning

Carts were banned from going near the fire.

# Monday Evening

The fire spread very close to the Tower of London.

Tuesday

St. Paul's Cathedral was destroyed in the fire.

# Wednesday

The fire started to burn more slowly as the wind died down.

# Thursday

Because the wind had died down and many houses were pulled down to stop the fire spreading, the fire stopped. Luckily, only six people died but thousands of people were left homeless, lost their business or lost many of their possessions.

# Why did the fire spread so quickly?

- What happened during the Great Fire? Let's watch [here](#)
- Can you choose the reasons why the fire spread so quickly from those below?

It had been hot so not much water was left in the Thames

The houses were made of bricks.

The houses were made of wood and had straw roofs.

It was very windy.

Fire fighters had hoses and plenty of water to use.

There was no fire brigade.

The houses were very close together.

It was raining heavily.
