

FLIGHT AND TRAVEL

School project

<https://howthingsfly.si.edu/activities>

VIEW FROM THE WINDOW...

Imagine you are in an airplane.

Draw what you see out the window.

What are you flying over?

Is it sunny or cloudy?

Can you tell which country you are flying over?

PAPER AIRPLANE...

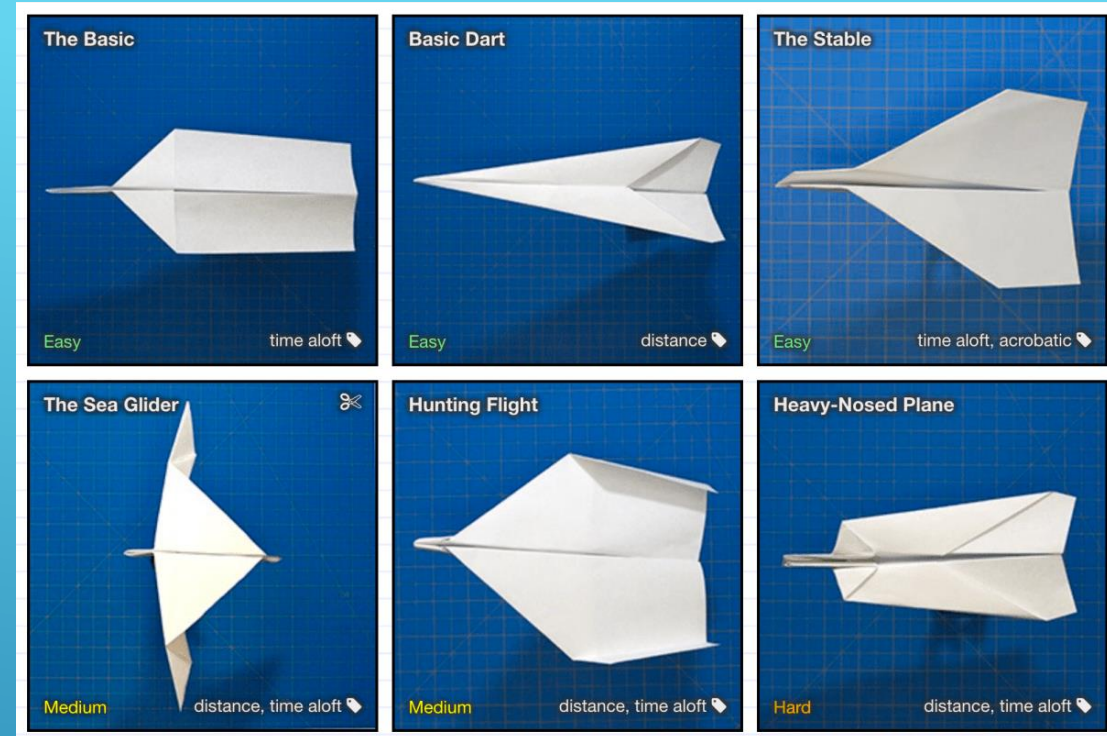

Can you make a paper airplane?

How far does it fly?

Can you make it go further?

How long does it stay in the air for?

Make Your Own
Model Parachute

www.discoverexplorel.com

DESIGN A PARACHUTE...

Cut the parachute shape and attach a toy.

Which material is best?

How long will it fly for?

WHERE WILL YOU TRAVEL?

MAP OF THE WORLD

You can go anywhere in the world.

Where do you go?

What will you see there?

What is the climate like?

Are you near a sea or ocean?

Which continent are you in?

Which transport will take you there?

TRAVEL SILHOUETTE

Design you own transport silhouette picture
