I can explore Viking jobs

What were the different jobs that needed to be done in Viking settlements?

Let's learn!

## Everyday Viking Life

Many Vikings were farmers. They kept animals, such as cows, sheep, chickens and pigs. Women spun wool from sheep to make clothes and milked cows to make cheese. Farmers also grew crops, such as wheat, barley and oats. These could be ground into grain to make flour, bread, ale and porridge, important elements of a Viking diet.

Children didn't go to school but would instead help with the daily farming tasks. They learnt about religion and history through stories and songs.

## Everyday Viking Life

Other Vikings were craftsmen. They made plates and cups from wood or belts and shoes from leather. Jewellery was made by craftsman from different metals.

An important job in a Viking settlement was the blacksmith. The blacksmith made tools and swords from iron.

Tradesman travelled between Viking settlements selling a variety of goods, such as silk, precious metals and furs.

What might you need to include in a job advertisement?

**WE NEED YOU!**

**Vacancy  
for a  
Prehistoric Monster Hunter**

We are looking for a brave, clever individual who can join our team of hunters.

Hunting is essential for our survival in this wild world.

Beasts roam the land but we need to catch those beasts to keep our families safe and provide food to eat.

You must be strong, good at running, fearless in the face of danger and prepared to work very long days until the job is done.

Create your own job advert in a similar style. What job needs to be done in your Viking settlement?

A large, empty rectangular box with a black border, intended for students to write their own job advertisement. The box is centered on the page and occupies most of the lower half of the slide.
