

Year 5 Autumn 1 Homework.

Please complete the tasks. You may choose the order. Please return your completed work on Friday 14th October 2022.

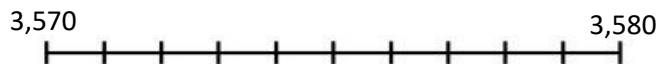

Keep a Diary

Leisure time can be spent alone or can often be used to help spend time with friends and family. Think about how you and the people around you at home organise leisure time. Create a diary that keeps a record of all the leisure activities that you do over the next few weeks. At the end of the time, see if you can find a way to group the different activities together, perhaps time spent as an individual, with friends or with family.

Numberlines to the Rescue!

Sometimes rounding numbers can seem very confusing! If this is the case for you, try using numberlines to help! If you're rounding a number to the nearest 10, draw out a numberline to help.

Let's round 3,578

Now place 3,578 on the line. Which ten is it closest to? 3,580

Can you find out if this could work for rounding to 100s or 1,000s?

Ten Thousand and A Hundred Thousand

Where in the world uses such enormous numbers? Can you find examples of where numbers of this size have been used and explain what they represent?

Design a Sign

We've recently explored fairground ride signs and the art that is used on them. Each design is used to attract people's attention so that they want to go on them.

Design a sign for a ride. Try to make it so that it is irresistible to go on.

Timestable Rockstars

Keep using Times Tables Rockstars to keep your mental recall up to speed.
