

Year 3 Homework Autumn 1 2022

Here are some Year 3 homework tasks.
Aim to complete one a week. Just like in school, try and put 100% effort into your work.

Please return your completed work on Friday 14th October

Science: Habitats

Visit: www.rainforestanimals.net

- **Choose an animal.** Create an information page about that animal using the information that you can research on the website.
- Focus on your presentation. Use colour and images to make it attractive!
- Explore the different animals. Pay close attention to the habitat section for each animal. What do you notice about the different habitats within the rainforest?

Literacy

Your friend is trapped in the middle of a rainforest! Tripping over a fallen branch, they have sprained their ankle and cannot move. They have managed to send their GPS position from their satellite phone and it is up to you to go on a rescue mission to save them!

1. Write a story about your mission to rescue them.
2. Make sure that your story has a clear beginning, middle and end.
3. Include characters that may help you or be a danger along the way. These could be rainforest animals — use your imagination!

Keep using Times Tables Rockstars to keep your mental recall up to speed. <https://ttrockstars.com/>

Don't forget to read the books that you are allocated every Monday.

Art

Choose an animal from the rainforest. You could visit the website from the science task for ideas.

Decide on a medium to use. For example, paint, collage, sculpture or coloured pencils etc.

Create a piece of artwork of your chosen animal.
