

Year 3 Homework - Summer 1

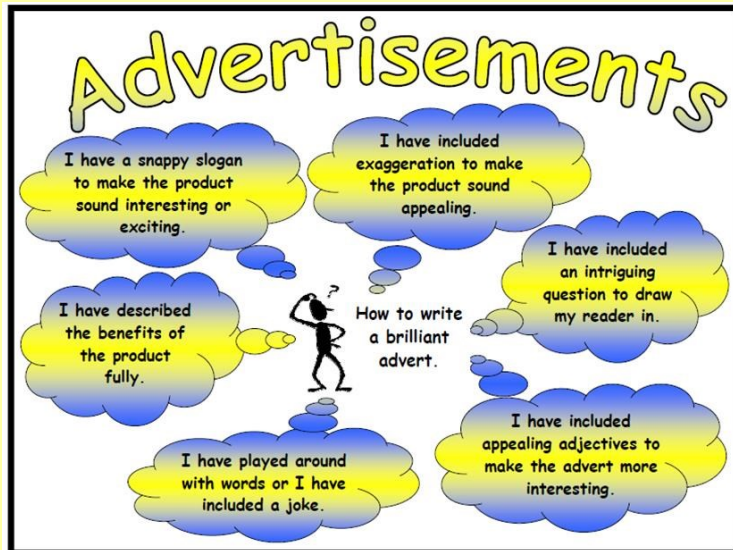

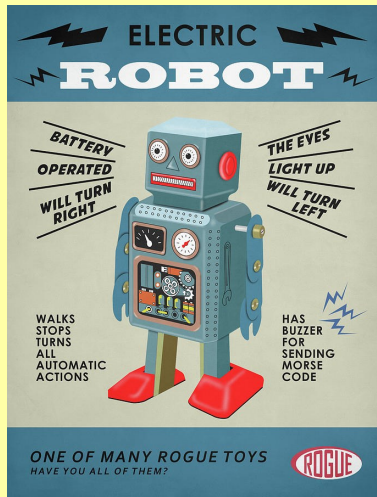

Please hand in work produced on: **Friday 19th May 2023**

Literacy

I can create an advertisement poster.

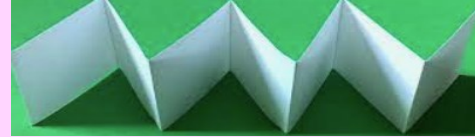

In literacy, we will be inventing appliances and machines to perform multiple functions to help us in our lives. We will then be using persuasive language and features to promote and sell our products. Your task is to create a persuasive advertisement poster for a product.

This is your chance to invent a new product! You can find a helpful lesson on advertisement posters here:
youtu.be/0tKi5m5cJpQ

Art & DT—I can create a Chinese dragon.

Here is your Art and DT challenge. Take a close look at the picture below. Can you create a dragon that looks like this? You can design your own dragon face, then add your own concertina body and don't forget your tail!

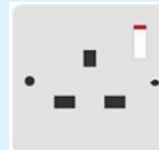

Remember to visit **Timetables Rock Stars** regularly and read your reading book at the weekend. Bug Club is available too.

Science

I can explain how to be safe around electricity.

Using this link: <https://www.bbc.co.uk/bitesize/topics/zj44jxs/articles/z9gk4xs>

Have a go at the tasks and then write a set of safety instructions to keep people safe using any electrical appliances that you can see around your home.

THIS HALF TERM WE ARE LEARNING ABOUT:

Electricity and circuits in Science. The Literacy texts will be Izzy Gizmo and Cats which we will use as a stimulus for our writing. History is based on the Ancient Greeks and we will look at some Art from around the world. In maths we will be exploring fractions further and covering time, alongside improving our arithmetic skills. We have weekly PSHE, Spanish, RE and Music lessons using the Charanga scheme.
