

Pupil Premium Provision 2022 – 2023

There are 20 pupils on Pupil Premium for this financial year - £27,700

(3 pupils left for secondary school in July 2023, further 2 pupils by end of year academic year.)

(As there is only one pupil in some year groups the school cannot report on some specific outcomes as this could potentially identify the child)

Progress of Year 6 pupils 2023

Identified Barriers

1. Progress and achievement for pupil premium children is overall in line with their peers
2. Absence rates impact on outcomes for some children
3. Reading records continue to indicate that reading at home is less likely to occur with Pupil Premium children

Target	Action	Impact
Continue to provide additional support to pupils in literacy and numeracy where needed.	1:1 teaching assistant support in the core curriculum subjects to ensure that attainment and progress gaps between PP and non - PP children narrows	Year on year data in Year 6 shows positive outcomes for Pupil Premium children (see data)
Ensure curriculum enrichment available for all children – including sporting events.	The opportunity to inspire and raise aspiration for PP families through innovative curriculum choices can be prohibitively expensive and children can miss out due to lack of funding. Innovative learning opportunities can raise aspirations and develop a love of learning in those for whom learning is not always their priority.	Aspirations of PP children were raised and opportunities to develop a love of learning increased where possible. Residential visit in Year 5 made available to all. Involvement in all enrichment activities.
Provide 1:1 and small group interventions for all children	Support by support staff to ensure that all PP children make at least the same progress as their peers.	Most PP children have made the same progress in line with their peers. Some children’s attainment is affected by SEND.
Provide all pupils with additional reading opportunities – at home and at school.	PP children will be allocated additional 1:1 reading support time at least three times per week.	Reading confidence has been improving with PP children. They have enjoyed a positive reading experience and more opportunities to read to an adult. Children were able to access BUG CLUB an online reading resource at home assigned a home use laptop.
