

School project  
based on the  
number

**3**

**three**

# Re-write the story - how many times can you mention the number three?

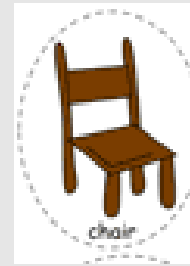

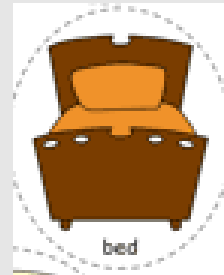

Create your own puppets and show.

Make 3 bears

Try 3 different things in porridge – design a new recipe?

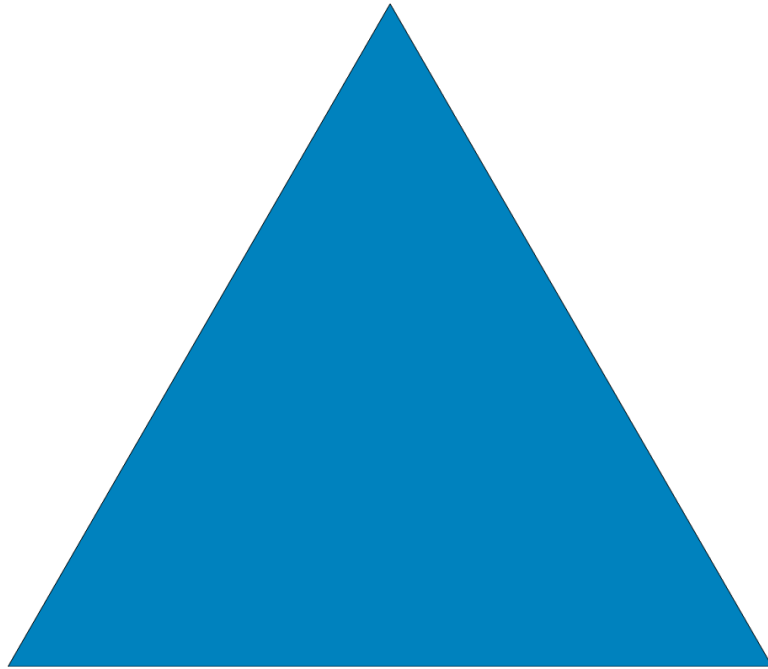

Make 3 chairs or beds out of different materials or three different sizes. Make one for your teddy bear.

Design a poster

Re-write or re-tell the story in your own way

A project about the number 3 ..... that's odd!

# Triangle

What do you know about triangles?

Where might you find a triangle?

Create a picture using triangles?

Can you make other shapes using a triangle?

**Triathlon** - an athletic contest with three different events, usually swimming, cycling, and long-distance running.

Can you create your own triathlon that you could complete either indoors or outdoors?

# Tri means three

How many things can you  
think of?  
Here are some pictures to  
get you started

**Trio**

**Triceratops**

Find out more about a **tri** word.  
Create a fact sheet or do some  
drawings that link to the number  
three.

**tricycle**

Some stories have three main characters can you create one of your own? - Draw the characters and plan their adventure.

Use any of these stories or the film and write a review of it - this means watch or read it and then say what you think of it.

Create a story with three words in the title.

How many children books have three words in their title? How many can you list?

Is it possible to make three identical things without using a computer?
